

I-380 Urban Corridor Feasibility Study

Study Area

Study Process

Phase 2
Feasibility Study

Phase 1 Study Findings

Needs

- Regional mobility
- Congestion management
- Asset preservation
- Safety and security in travel
- Economic investment

Focus areas

- Wright Brothers Blvd.
- US 30 @ 380 & 6th Street
- 1st Ave interchange
- 5 in 1 Bridge
- 2nd/3rd Street interchange
- 7th/8th Street interchange
- 42nd/Hwy 100/Blairs Ferry
- Boyson Road/Tower Terrace

Phase 2 Goals and Screening Criteria

- **Goals**
 - Maximize system efficiency
 - Minimize cost
 - Regional mobility
 - Promote economic vitality
 - Enhance sustainability
 - Increase infrastructure safety
 - Preserve assets
- **Screening Criteria**
 - Identified problems, goals and objectives
 - Environmental red flags
 - Traffic impacts, system capacity and safety
 - Development and flood recovery efforts
 - Engineering feasibility / Use of existing infrastructure
